

THOMAS DEACON ACADEMY ACCESSIBILITY ACTION PLAN 2023

ACCESSIBILITY PLAN

January 2023-2025

1. Aims

The key objective of the Accessibility Plan is to reduce and eliminate barriers to the curriculum, and to ensure participation in the school community for all students, and prospective students, with a disability. There are three main focus areas:

- 1) Access to the school curriculum and extra-curricular activities.
- 2) Access to and around the physical environment.
- 3) Delivery and accessibility of written information to students and parents.

We are fully committed to providing an environment that values and includes all students, staff, parents, Academy Committee members and visitors regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs. We are further committed to challenging attitudes about disability and accessibility, and to developing a culture of awareness, tolerance and inclusion.

The Accessibility Plan should be read in conjunction with the following policies and documents:

- SEN Local Offer/ SEND Information report.
- Special Educational Needs (SEND) Policy.
- Public Sector Equality Duty.

2. Legislation and Guidance

The Accessibility Plan is drawn up in compliance with current legislation and requirements specified in Schedule 10, relating to disability, of the Equality Act (2010)¹ and the Department of Education Guidance for schools on the Equality Act 2010 (2014)².

The Equality Act (2010) defines an individual as disabled if:

- a) He or she has a physical or mental impairment.
- b) The impairment has a substantial and long term adverse effect on his or her ability to carry out normal day to day activities.

Under the Special Educational Needs and Disability Code of Practice (2015)³, 'long term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer. Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act (2010), to alleviate any substantial disadvantage that a disabled student faces in comparison with students without disabilities.

¹ [Equality Act 2010 \(legislation.gov.uk\)](http://legislation.gov.uk)

² [Equality Act Advice Final.pdf \(publishing.service.gov.uk\)](http://publishing.service.gov.uk)

³ [SEND Code of Practice January 2015.pdf \(publishing.service.gov.uk\)](http://publishing.service.gov.uk)

3. Good Practice: Ensuring access to the school curriculum and extra-curricular activities

- Experienced staff differentiate lesson materials and adapt and modify lesson activities to ensure that all students can access the curriculum.
- Where relevant, classwork is re-produced in correct format and font size for students with visual impairments or colour blindness.
- Where necessary, specialist staff are employed in order to support students with particular needs (e.g. staff trained in BSL, Physical Disability specialists).
- Teachers and Learning Support Staff complete regular training in key areas to support them with lesson planning and delivery in order to meet student needs.
- A personalised intervention programme targets students' individual needs identified within the EHC plan/ Pupil Learning Plan and through assessment.
- Students have the opportunity to use specialist equipment such as laptops and iPads with specific software to ensure access to curriculum.
- Students have access to additional adult support to further reinforce lesson material.
- All students have opportunity to participate in extra-curricular trips, clubs and sporting activities.
- Clear and concise information regarding pupil's needs are circulated to all teaching staff to inform teacher planning.
- Further training on how to meet specific needs is provided when required.
- Curriculum resources include examples of people with disabilities.
- Targets are set effectively and are appropriate for students with additional needs.
- The curriculum is reviewed regularly to ensure it meets the needs of all students.
- The Academy has regular support from Local Authority Services such as: the Hub Network, SENDCO Network, Specialist Teaching services and the Educational Psychology Service.
- The Academy refers to Local Authority Health services and external services when required such as Speech and Language, Occupational Therapy, Physiotherapy and the School Nurse Service.

4. Good Practice: Improve and maintain access to the physical environment of the school

- TDA is easily accessible for all students.
- The Academy refers to the Local Authority Teacher of Physical Disability for further advice if required. Regular meetings are held with the Teacher of Physical Disability in order to ensure that best practice is being followed.
- The environment is adapted to the needs of students as required. For example:
 - Lifts are an integral part of the TDA building to support movement of students across all floors.
 - Disabled parking bays are located conveniently close to the doors for ease of access.
 - There is disabled toilet access throughout the building with disabled showering facilities also available.
 - Trained staff able to use specialised equipment to support standing and seated transfers for wheelchair users (e.g sara stedy and hoist) are available.
 - Alternative toileting and changing facilities for students requiring personal care.
 - Wide corridor width and doorways supporting ease of access.
 - Specialist desks and chairs are available in classrooms when required.

5. Good Practice: Improve the delivery and accessibility of written information to students, parents and visitors

- Key messages around school are published on the school website.
- Letters are sent home in specific font size and alternative languages for identified families.
- All policies can be made available in large print or other accessible format if required.
- Provide information in symbols, large print for prospective students and parents who have difficulty with standard form of print.
- Personalised tours around school with a member of SEND Team on offer, reinforcing written information, for new or prospective parents.
- Internal signage.

ACTION PLAN:

6. Reviewing and Improving Access to the Physical Environment
